IEEE COMSOC

Distinguished Lecture

29 SEP 2023

10AM - 1PM

TITLE OF THE TALK

NETWORK SLICING IN 5G AND BEYOND: THE HOLY GRAIL OF 5G AND BEYOND 5G!

Abstract:

We introduce the concept of network slicing (NS) and present an overview of its current status along with a brief introduction of NFV and SDN as enabling technologies. Techno-Societal-Economic drivers of the NS are discussed. A number of key research and deployment challenges are discussed. This is followed by a discussion of the positive implications of NS to bridge the digital divide and present the business drivers for the infrastructure providers and the service providers.
